George E. Cole. Mr. Cole recently returned from Florida and Shurtleff, who had been a co-worker with him in various civic organizations, went to visit him and was stricken with paralysis.

Mr. Shurtleff, who was 70 years old, started his business career in 1879 in the wire business but soon after became interested in the wholesale drug business. For years he was vice president and treasurer of Morrisson, Plummer & Co., later merged into Fuller Morrisson Co. He retired from active business several years ago, but retained his seat as director of four or five banks. He was a member of the Association of Commerce and an active member of the Union League club. He was president from 1897 to 1912 of the Wilmette school board.

Mr. Shurtleff, a cousin of Judge Edward D. Shurtleff, is survived by three daughters, Mrs. Alice S. Campbell, Mrs. Helen Blahr, and Mrs. Bernice Cole, and a son, Howard F. Shurtleff.

At these tamous sausage teasts

... one partook freely and with great satisfaction

Grandmother Mickelberry was both cook and hostess at those famous morning gatherings on the old Georgia plantation.

By some bewitching skill she blended dainty morsels of succulent pork with a secret Southern seasoning of her own creation. And those who ever tasted the tantalizing flavor never forgot it.

Fortunate it was that Grandmother Mickelberry's little farm sausages not only whetted the appetite, but also inspired and aided digestion.

Try Mickelberry's and see

Mickelberry's little pork sausages are made today exactly as Grandmother Mickelberry

Today's Recipe MICKELBERRY TOAST FINGERS.

Cut bread into strips a little longer and wider than a Mickelberry Sausage. Toast on both sides. On each strip place half a cooked Mickelberry Sausage split lengthwise and cover with a thin layer of pimento cheese. Place in oven until cheese is melted and serve immediately. The soft package cheese should be used.

INDIANA'S TURN.

and electoral corruption. In Indiana it has been the Ku Klux Klan. In Ohio it was the Ohio gang that descended on Washington and the naval oil reserves. And in all three states, Indiana in particular, the Anti-Saloon league went along because disreputable politics would bargain to be officially dry for the sake of dry support.

On April 10, Illinois, through its voters, repudi ated the machine that gave the state its place among the trio. And so it is with no holier-than thou interest, but in a spirit of "we've been through it, top," that Illinois watches the coming elections in Indiana and hopes that Indiana, too, may pull itself out of the mire of venal politics. In order to save itself, Indiana has the klar and the Anti-Saloon league to fight and put down, twin institutions of patriotism and goodness ac cording to advertisement, twin organs of intoler-ince, and lawiess super-government in practice.

Indiana has been on the way to the light for some time. Graves and fails once received those who fought the kian and league. Jails and penitentiaries now hold many of those who worked for the illegal control of Indiana by the kian and the league. Kian and league have been exposed; their acts of terrorism and contempt of lawful government have been spread on the judicial records. All that remains is to vote down the few controlled officials still in office.

Indiana needs independent state government and treatment is not begun until thirteen weeks before symptoms are expected. There are physicians who start later and treat more vigorously, but this article sets for the experience by Dr. Walker, who began ten years ago, and who prefers the longer, slower method. One treatment is given each week. In a few cases the treatments are given at five day intervals. The method of treatment to desensiting has been in general mee by physicians so long that most people know how it is done.

Indians needs independent state government and independent representation at Washington. It needs state officials whose past acts will not rise up to send them before the grand jury and perhaps into a prison. It needs men in congress who can speak for themselves when they rise for their state and who are intelligent enough, when their tract for the new Austin High school to state is corruptly commanded by organizations which the Harvey A. They have come up by wildrose ways With dreams and wondrous wills, And they shall hold for all their days The memory of low hills, Patterned, silent, in the sun, And villages and quiet things As men at eve when work is done

And night comes on with raven wings.

Send up your bright towers to the sky! Send up joy's facades and God's spires! The youth of all the land pass by . , . These are youth's greeting fires! O, City, take thy might and bend With years and fortunes, in thy way, Their lives, to make them in the end The dreams which they would be today! Let fogs alip in on wet spring nights.

Let boats pass through your gate, Along the rows of river lights Where all thy magic waits The easy rush of treadless years, Which pass as silent as they come To wear you as the whole world wears And send you down with Rome!

Lift high their heads! Great city, they are you Send up thy towers and light thy spires! Youth speaks a gay, enchanted tongue, Love, Fortune, Life, their faithful fires

Dawes as Dark Horse. Similarly, Vice President Dawes is reported to have had an accession of sentiment, as a probable dark horse recipient of the Lowden strength if the former Illinois governor should fail to land the nomination. Many politicians outside the Watson camp say that if Lowden were on the Indiana ballot he would beat Watson.

Only two candidates are entered in this state—Hoover and Watson. And Watson is held to be the beneficiary of the gains made by Lowden and Dawes among the Hoosier electorate, as these, naturally, are anti-Hoover. In other words, as seasoned politicians view it, although only Hoover and Watson are running here, the effect of circumstances to all intents is to put Hoover in the position of running against a field.

Both camps today are claiming the advantage. Senator Watson returned to Washington, billed to return here next week. His managers, after getting reports from all the countles, are saying Watson will beat Hoover two

ORIENTAL RUGS THAT ARE NOT MADE TO SELL

OMETIMES, and it is by no means rare, Oriental Rugs bear romances of which we know nothing. For instance, the story of the little Persian maiden who was to weave for the first.

time a rug of her very own! How she sat at her loom a few hours each day, weaving bit by bit the magic strands of brilliant, colorful yarn . . . how the rug grew with the months and the years into a creation of the rarest beauty! How, on her wedding day, the maiden presented this gorgeous dower to her husband, as was customary, for it was a gift that was indeed the pride of her heart.

This is but typical of the story that many Oriental Rugs might tell. Such rugs, however, are not meant for sale. But occasionally they find their way to America. You yourself may possess one of these rare treasures, although you will probably never really know. Isn't it wonderful to think that you might have one, or perhaps come across one? Oriental Rugs such as the Olson Rug Company imports direct from the East contain such romance. Oriental Rugs of such brilliance and colorful design as you will find here were months in the making. One would be a source of great pride in your home.

Why move your old Piano? "Bank" it per and let it earn you cent

A RE YOU THINKING OF MOVING? If so, it will pay you to take advantage of THIS LATEST KIMBALL PLAN.

THIS IS BETTER than merely "trading in" your piano. Under our plan, you actually draw 6% interest on the valuation price of your present plane until the new one enters your home.

YOU SAVE the cost of moving, you avoid the expense of storage, you escape the risk of damage in transit, and you are credited with double the interest that you would be paid by a bank. NO GUESSING about values. We send one of our experts to your

home and allow you the utmost that it is worth. The new instrument—a beautiful new Kimball—any style you select—will be delivered at any time you are ready up to one year. Your 6% credit will run for that entire time. AND MORE THAN THIS: If you prefer to make advance payments toward your new piano we will credit you 6% interest on all such partial payments until the new piano enters your home.

VARIETY OF STYLES: You cannot realize, without seeing them, what a wide choice of beautiful designs we are offering—period, classic-modern, and reproducing grands, uprights and players. There is a Kimball exactly suited to your home, and Kimball prices are impressively

TUNING, REPAIRING, STORAGE: We are thoroughly equipped to take care of tuning, repairing, action regulating, polishing, etc., of any make of piano. We give careful estimates of the cost, and all our work is guaranteed. We have the best facilities for storing, moving, or other piano

Leaves Hair Twice as Beautiful

In a few minutes time, your hair is oft, silky and radiant with life, gloss and lustre.

To have beautiful, fresh looking hair simply a matter of proper shampoo-

is simply a matter of proper shampooing.

While your hair must have frequent and regular washing to keep it beautiful, it cannot stand the harsh effect of ordinary soaps. The free alkali in ordinary soaps soon dries the scalp, makes the hair brittle and ruins it.

That is why discriminating women, everywhere, now use Mulsified Coccanut Oil Shampoo. This clear, pure and entirely greaseless product brings out all the real beauty of the hair and cannot possibly injure.

Two or three teaspoonfuls of Mulsified is all that is required. It makes an abundance of rich creamy lather which cleaness thoroughly and rinses out easily, removing every particle of dust, dirt, and dandruff.

It leaves the hair soft, silky, and easy to manage and makes it fairly sparkle with new life, gloss, and lustre.

You can get Mulsified Cocoanut Oil Shampoo at any drug store.

The Chicago Plan commission was not represented. The commission, it is understood, stands upon the propo-aition that it will not approve the ex-tension of McCormick road from Devon to Lawrence avenue until the property necessary to open Kimball avenue through to Devan avenue is acquired. The property necessary to extend Kimball avenue is owned by the Magerstadt interests, which de-cline to dedicate the right of way.

Although the sanitary district trus-tees have previously stated that they would follow the recommendations of the plan commission to the letter, the remarks made by Mr. Miller were interpreted by many of the hearers to mean that the trustees might yield to public sentiment, if properly and in-sistently enough presented, to the ex-tent of completing the boulevard down as far as Lawrence avenue. No defi-nite commitment to this effect, how-

ever, could be coaxed from the dis-trict's representative at the hearing. Mayor Bartlett stated that at the north, Evanston is prepared to open and pave an extension of McCormick road which will serve all north shore ranted to see what was going on at he south end first.

The secretary set extra cost to the government of marine activities in Nicaragua at \$1,530,170. The total cost of maintaining the expeditionary force, Mr. Wilbur fixed at \$3,536,000 It was explained, however, that more than two million dollars of the total cost would have been expended on the marines even if they had remained

Delay Passage of Navy Bill. in response to a resolution introduced yesterday by Senator Blaine [Rep., Wis.], and forced through the senate by the Republican radicals. The resolution asked for the comparative cost of using ships, aircraft and men in Nicaragua with keeping them at home stations, the number of American sol-diers and Nicaraguans killed and wounded, and the number of Nicara guan homes burned and destroyed. The radicals have been fighting the appropriation of extra funds for main-taining marines in Nicaragua, succeeded in postponing action on the three hundred sixty-four million dollar naval appropriation bill again today. In Just Five Minutes Those Sore Tender, Aching Feet Get Amazing Relief

You probably feel like a lot of other people that about all you can do is dustable as the same powder in your shoes or give your feet special foot bath and let it go at that, but don't be foolish. Make up your mind today that you are going to give your feet a real chance to get well.

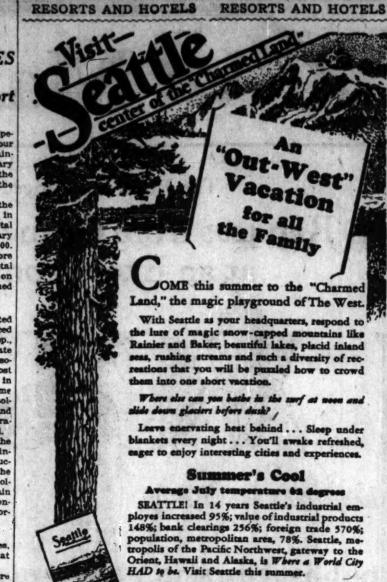

Go to any good druggist today and get an original bottle of Moone's Emerald Oil.

The very first application will give you relief and a few short treatments will thoroughly convince you that by sticking faithfully to it for a short while your foot troubles will be a thing of the past.

Don't expect a single bottle to do it all at once but one bottle we know will show

GERMAN VOGUE

The first issue is published today in Berlin

TODAY, for the first time, Vogue is published (as a native magazine). in the German language.

It is prepared by German editors and managed by German circulation, advertising and business staffs. It is printed and bound in German factories. It bears the imprint of Vogue Verlag, Berlin. It begins circulating today throughout Germany, Austria, Hungary and the other German-speaking sections of Europe.

GERMAN VOGUE is the fourth separate national edition of Vogue . . . the American edition having been established 35 years ago in New York . . . the British edition 12 years ago in London . . . and the French edition 9 years ago in Paris.

In establishing these foreign editions, Vogue has accomplished something that no other periodical, and no newspaper, has achieved in the whole history of publishing.

While other magazines or newspapers have gained a limited export sale in lands foreign to their origin, Vogue is the first periodical in history to take root, not as an export magazine, but as a native periodical printed in three different languages and four widely separated countries. It has thus become a living force in all of the civilized corners of the world.

Vogue knows no frontiers!

Why has Vogue become a dominating force in every quarter of the globe?

Briefly, because the smart, well-to-do, travelled and fashionable women of both hemispheres have made two important discoveries.

First: That Vogue reports fashions with more promptness, chooses them with more judgment, presents them with more distinction, and writes of them with more authority than any other periodical in the world.

Second: That Vogue may be relied on absolutely and implicitly as a mirror of breeding and good taste and that it is unfailingly accurate in its selective sense, not only in matters of dress, but in questions of decoration, home appointments, entertaining and in every activity affecting the life of fashionable women.

Year by year, the knowledge that Vogue has these benefits and services to offer has spread so irresistibly that today, no matter what part of the world one visits...wherever smart women are to be met with...one finds them reading American Vogue, or British Vogue, or French Vogue... and now, in the German-speaking countries of Europe, the new German Vogue.

The success of an enterprise, in any single country, may reasonably be said to imply high merit. But when that success is repeated throughout the civilized world we are confronted with evidence that, behind the enterprise in question, there must be forces and qualities that are not only extraordinary but universal.

The combined racket was enough to make one's ears wiggle and his head spin. It was no easy task to get all this network of concord and discord, rhythm and lack of rhythm, sly and silken melodies, everything turned topsy-turvy and tossed helter-skelter.

ONe of the first things noticed was the many musical reminiscences of the world's first great work in syncopation, Gershwin's "Rhapsody in Blue"—a work apparently containing about all to be said in syncopation for years. The newer works performed last evening were not materially in advance of that work except in details.

in details.

The plane seems to be taking a leading place in jazz, something akin to its role in a plane concerto for symphony orchestras. Some of the work for the plane is excellent indeed.

The strictly orcheestra scoring is showing a decided tendency to curtail pronounced rhythm. In some of the works played last evening it was dimcult to keep track of the rhythmic beat. A decided advance has been made in the direction of medulation. This smooth flowing, progressive modulation is perhaps the best thing in modern syncopation and the composers are doing wonders with it. The saxophone squeak and growl is growing less prominent. The total result is

The Uniterless Cooker there's only ONE-and WEST BEND makes it | Cooks the Entire Meal At One Time

SINCE the advent of aluminum cooking utensils no single advance in the history of modern cookery has been as far reaching or as beneficial in its effect as this—the development of The Waterless Cooker.

The West Bend Aluminum Co. are pioneers in the constant development of more scientific and healthful cooking. During the past sixteen years in which they have been making aluminum cooking utensils West Bend products have enjoyed an increasingly wide popularity.

It was only natural then that their long and varied experience and years of scientific research should perfect *The Waterless Cooker*—the remarkable utensil which not only insures the preservation of all the most vital elements in food but brings to the housewife convenience and economy heretofore unheard of.

How the First 100 of The Waterless Cookers sold themselves

Back in 1921 the West Bend Aluminum Co. made the first model of the Waterless Cooker. It was given a test that was unique—the most practical and thorough that could have been devised. One hundred of the first models were distributed to housewives in Chicago. Each housewife was asked to use *The Waterless Cooker* in preparing her regular family meals and to give it any test she wished, for six weeks, without making any payment whatsoever. At the end of this time she had the privilege of either returning *The Waterless Cooker* or paying for it.

At the end of this six weeks' trial period these housewives were called upon again. No attempt was made to sell them. Each one was simply asked how she liked her cooker.

Two housewives had moved and could not be located. One was in financial difficulties and could not afford to buy. Two returned their cookers. Ninety-five of the hundred housewives were decidedly enthusiastic about *The Waterless Cooker*. They insisted upon keeping it—and paid for it gladly. *The Waterless Cooker* was a proved success from the start because its fundamental principles were sound.

Patented Clamps--A Remarkable Improvement

During the seven years since the first model appeared many remarkable improvements have been made in *The Waterless Cooker*. Of all these, the one of the most far-reaching importance was the final perfection of the cover clamps—an exclusive patented feature of vital importance in making *The Waterless Cooker* a marvel of cooking efficiency.

In The Waterless Cooker all meats and vegetables cook entirely in their own natural juices no water is added. These specially constructed clamps hold the cover securely in place insuring an absolutely accurate, tight fit. This effectually prevents steam from escaping and keeps the food from scorching or burning. All the flavorful, natural juices and appetizing aromas are preserved none of the health-building vitamins and mineral salts in the food are lost by evaporation or drained away as in ordinary cooking.

In addition to these clamps, the cover has a specially designed reverse bead edge. This gives the cover extra strength—it cannot be jarred or sprung out of shape by continued use, but will always fit snug and tight. This edge also insures absolute sanitation, as it makes the cover easy to clean.

Leave the House for the Afternoon Dinner will be perfectly Cooked on Your return

More than a million women are now using The Water-less Cooker. They find it a real help because of the extra hours it gives them to do other things. Your entire meal—meats or fowl, all vegetables and even desserts—can be cooked at the same time, without intermingling of flavors. Just place the meal in The Waterless Cooker—over only one burner, turned low—and forget about it while you rest or do other things. It needs no watching. You can leave the house for an afternoon of shopping, bridge or movies. When you return at dinner time, everything is perfectly cooked—ready to serve—deliciously appetizing and healthful.

With The Waterless Cooker you can actually serve the family tastier and more richly nutritious meals and do it at less cost. Cooked in their own juices the cheaper, but equally nourishing, cuts of meats are rendered surprisingly toothsome and tender.

Your fuel bills will be so much lower, too, because The Waterless Cooker requires considerably less fuel. More and more women are finding The Waterless Cooker indespensable because they can save money while saving themselves work.

REMEMBER---The Waterless Cooker was designed by and is manufactured solely by the West Bend Aluminum Co. Look for the name--"The Waterless Cooker"--it's always stamped on the cover.

The Security Margins Steadily Grow

HREE THINGS are constantly at work to make our bond issues safer and safer—increment in land values-increases in earningsand serial payment of the bonds.

Land values in the larger cities are constantly increasing. The percentage of increase is usually greatest in the most desirable sections. There the properties securing our bonds are located. And as values rise, the incomes from properties inevitably rise.

While ground values and rental incomes are being augmented, each of our bond issues is reduced year after year by the paying off of a part of the bonds as they

From these facts it is evident that the originally ample margin between the amount of the bond issue and the actual value of the property continually widens in two directions. The property value goes up—the loan goes down. The excess of income over the amount required to pay the interest also shows an ever-widening margin.

To appreciate the safety of our First Mortgage Bonds, there are many facts like these which the investor ought to know. You will find reading our literature profitable.

CONTINENTAL NATIONAL BANK AND TRUST COMPANY OF CHICAGO, Trusts

The following is summarized from a letter of Mr. J. F. O'Connell, President of the Company.

Property and Territory: The Illinois Commerpany, incorporated in 1928 under the laws of Illinois, will operate
62 telephone exchanges serving, without competition, 142 communities and surrounding territory in 24 counties in the southers,
southeastern and northern parts of the State of Illinois. These
communities are the center of important agricultural and diversified industrial activities, the territory served including a population in excess of 535,000. At December 31, 1927 the properties
to be owned included 31,011 stations. Through connections with
the Bell System, the toll facilities of the latter will be available to
all subscribers, thus affording a nation-wide telephone service.
The properties are well grouped for economical operation and are
in excellent operating condition.

Security: These bonds, in the opinion of counsel, will be secured by a first mortgage on all the fixed property, rights and franchises of the company owned at the date of the execution of the mortgage and on all such property thereafter acquired against which any bonds may be issued under the mortgage. The value of the fixed property of the company to be subject to the mortgage upon its execution, as recently determined by independent engineers, is largely in excess of these first mortgage bonds presently to be outstanding.

Capitalization: (Upon completion of present financing).

CAPITAL STOCK:

Preferred Stock 36 Cumulative (No par value) ... 10,000 shs.

Common Stock (No par value) ... 40,000 shs. FUNDED DEBT: First Mortgage 5% Gold Bonds, Series A; due March 1, 1948 (this issue)\$2,250,000

Purpose of Issue: The proceeds of these bonds will be used to pay in part the cost of acquiring the properties to be subject to the mortgage and to retire all funded indebtedness thereon now outstanding action.

Franchises: In the opinion of counsel, the franchises under which this company will operate are satisfactory and free from burdensome restrictions.

STATEMENT OF FACT ABOUT INVESTING

... that will generously repay the four minutes you will spend reading it.

MOST men, if they stop to con-sider it, will realize they are doing one of two things; speculating (buying and selling on tips, advice of friends, news items or what not) or else they are investing conservatively (government bonds, municipals, old line preferred stocks).

In either case, many thousands of instances indicate that there is seldom a carefully worked out plan. Further, it becomes self-evident that, no matter how intelligent the man, he is attempting an extremely diffi-cult job . . . trying to make money in 'the other fellow's business'

: and trying it largely on random information. Sometimes he succeeds, but practically never does he do so consistently, year after year. There are always the bad years that offset good ones. In fact, the vast majority of speculators lose money eventually.

The conservative investor, on the other hand, must be content with 4%, 5% or 6%... not a large return, surely. Right now, a large number of stocks are selling at levels that make their income return less than Savings Bank interest! What should a man with capital to invest, who does not want to gamble, do under these circumstances?

THIS you should do

You should formulate a policy; avoid both over-conservatism and reckless speculation. Buy securities only on mature advice that takes into consideration (1) the particular company; (2) the particular stock or bond; (3) the particular industry; (4) the general, related factors; (5) the question of whether the time for buying is right.

Do these things and your invest-ment results will undergo an amazing improvement. We have seen it,

Our work covers this . . . and more. It is our business to work with

investors to the end that their time may be saved, worry eliminated and profits built up. To do this, we have 102 people, concentrating on investment matters. They have available the most comprehensive data, not only on stocks and bonds, but on general business trends and individual companies. Experienced men study each situation carefully and draw definite conclusions. But . . . these conclusions do not reach you-as a subscriber-until a detailed report has been submitted to and approved by our Investment Council of 12 men . . . men trained in business, research, statistics, investment and finance, a group backed by nearly a quarter century of experience. What does this mean? It means that sound individual judgments plus group decisions stand behind every Brookmire recommendation.

A steady increase ... wby?

These Brookmire recommendations are released to our clients with the purpose of enabling them to secure with safety a better-than-average return from their capital, whether it be \$5,000 or \$1,000,000. The degree to which we have been able to carry out this purpose is indicated by the fact that the number of Brookmire clients has steadily increased, and that thousands of individuals and institutions are renewing their subscriptions year after year. And, it is significant that the greatest increase comes from men who, because of the size of their investment accounts, are watching them closely. These are men with capital amounts of \$30,000, \$50,000, \$150,000 and more, who CHICAGO PHILADELPHIA

SAN FRANCISCO

are employing our special plan of individual supervisory service. There can be but one reason; Brookmire clients, whether Bulletin or Supervisory, find that Brookmire counsel pays.

THE Special PLAN

The special plan is a highly individnalized service, operating through supervisory units composed of a group of investment and business advisors. It is designed for men and institutions who appreciate the complexities of directing successfully a 'large account," who want safety, appreciation of principal, and satisfactory income.

We will be glad to forward for your inspection the facts about whichever program suits your needs, the Bulletin Service or the Supervisory Plan. We would appreciate your filling out the last line of the coupon and will consider it entirely confidential.

If you have seen "THE OFFICIAL RECORD," an advertisement given wide publication, you will not need information about the results secured through following Brookmire advice. If you have not, we will be glad to send you a copy. It shows every recommendation made during the first six months of 1927 and the results. It is conclusive only because it is typical. The coupon will bring it.

Sales Outlook Chicago

THE IS ONE OF A SERIES OF ADVERTISEMENTS DISCUSSING THE PRESENT INVESTMENT OFFICETURITIES IN SIX STANDARD CLASSES OF SOUND BONDS, INCLUDING INDUSTRIAL, PUBLIC UTILITY, REAL ESTATE, RAILROAD, MUNICIPAL, AND POREIGN

Railroad Bonds

THE transportation systems of the United States are now on a sounder, more I stable basis than ever before. The securities of the stronger, well-managed milroads are justifiably regarded as among the best secured and most conservative investments available, and a selection of such issues should logically be inchaded in a well diversified list of investments.

The current investment list of Lawrence Stern and Company includes the following selection of railroad bonds:

SECURITY	BATE	MATURITY	APPROX.
St. Louis-Sen Francisco Ry.	43/4%	1978	4.65
Southern Pacific Co.	43/4%	1968	4.50
Illinois Central Railroad Co.	4%%	1966	4.60
Missouri, Kansas & Texas R. R. C	0.43/4%	Jan. 1, 1978	4.52

The high regard in which the better class of railroad bonds are held, reflects the fact that transportation is a fundamental necessity in the economic structure of the country, and that some of the stronger railroad systems are conspicuously efficient and well-managed. In addition to the factor of security, the necessity for diversification should be considered, and the investor who holds a large propostion of other classes of securities may profitably consider the inclusion of some well-chosen railroad bonds.

We shall be glad to send a circular describing any of the above issues - or give further recommendations in the railroad field - to any interested, investor.

Pennsylvania State Water Corporation
First Lien 5.50 Per Cent Gold Bonds, Series "A"

Business: The Pennsylvania State Water Corporation, through its subsidiaries, owns and operate water companies supplying water without competition for domestic, industrial and municipal purposes to various communities located in the Commonwealth of Pennsylvania, among which are Uniontown, Monongabela City, Lewisburg, Milton, Northumberland, a portion of Altoona, and others in the vicinity of Harrisburg, Pittsburgh and Altoona, and to the city of Moundsville, West Virginia. These companies serve an estimated population of 180,000, and have been in continuous and successful operation for various periods up to 44 years. All of the common stock of the Pennsylvania State Water Corporation (except qualifying shares) is owned by the Community Water Service Company, which, through its subsidiaries and affiliated companies, supplies water to numerous cities and towns in the United States with a total population in excess of 875,000.

Security:

The First Lien Gold Bonds, to be outstanding in the amount of \$5,200,000 upon completion of present financing, will constitute the only funded debt of the Corporation and outstanding stock (except qualifying shares) of 16 of the 25 companies now owned and operated by the Corporation, and more than 95 per cent of the outstanding stock of the remaining nine companies. The physical properties of the subsidiary companies have an aggregate depreciated value, as determined by appraisals, of over \$10,190,000.

Consolidated earnings of the Corporation and its subsidiaries for the twelve months ended January 31st, 1928, are reported as follows:

TRIBUNE COOK BOOK

BY JANE EDDINGTON. Veal Daube.

A long time ago when I studied Creple cookery somewhat, during a month
in New Orleans, my hostess told me
first of the "daube" as something extremely native. And then the colpred and beturbaned artist in that old
Creole home described it as follows:
"You put on your pot and you put
in your lard. Then you put in your

Prevention Is Better Than Cure, Experience Proves

Letters are beginning to come to me from parents who are annoyed or worried or impatient because their girls want to go to parties and go out at night with boys. That meaty subject is worthy of many articles—and then a symposium or two. Today I merely want you to read with me a letter from a mother who is working it out in her own way. Observe that she does not drift—she does something positive and constructive about the problem in a way which is assuredly esful in her case.

"Now, just a line about my girls. The oldest is in her first year at high school, studying to became a teacher. She also plays the plane. The youngest will graduate in another year. She plays the violin. They never ask to go out at night but are content to y at home with daddy and me.
'I allow them to bring friends

"I allow them to bring friends to the house. They play games and music and dance. Sometimes I join in, and we all have a good time. "They never get spanked, as I think children must hate parents who spank them. Kind words and under-

have tried to teach them since they were bables. My husband is just a working man, but we are trying our est to give our girls a good start in

The woman who cut corners with health

FOR a long time she had gotten by. Living on shoetring energy. Cutting orners with health. But now she was paying. Now, the least little thing tired her completely out. En-

And every mirror mocked her to her face.

What a tragedy that so many people fail o realize the trouble constipation can cause—but let it go on neglected, doing its deadly work. Constipation saps vital strength. Thieves youth. Mars beauty. Throbbing seads and aching backs, dragging feet and usterless eyes, are its fruits — and it frequently leads to serious disease in the end.

And the pity is that, all the while, it is so easy to relieve. So simple to prevent. Kellogg's ALL-BRAN is guaranteed to bring prompt relief. Pleasant, safe prevention!

ALL-BRAN is effective and natural

Bulk or roughage relieves constipation in a natural way. Kellogg's ALL-BRAN furnishes bulk in generous quantity because it is 100% bran. This bulk carries moisture throughout the digestive system—gently exercising the

intestines, sweeping out poison-ous wastes. Part-bran products seldom contain sufficient bulk to be completely effective. Doctors recommend ALL-BRAN.
Because it is 100% bran and accomplishes 100% results.

> So much better than harsh drugs

ALL-BRAN brings lasting relief. Far better than habit-forming pills and laxatives whose dose must be constantly increased and which are only tem-porarily effective. An appetizing cereal food. ALL-BRAN is delicious with milk or cream with fruits or honey added. Soaking a few moments in the milk brings out all its nut-like flavor. Mix it with other cereals too. Sprinkle into soups. Use it in many kinds of cookery.
Eat two tablespoonfuls daily—chronic cases,
with every meal.

But be sure you have genuine Kellogg's— the original ALL-BRAN. Don't take chances with part-bran substitutes, which, at best, can be but partially effective. ALL-BRAN is sold On diners. Made by Kellogg in Battle

Has Your Back Given Out?

A Constant Backache Often Warns of Sluggish Kidneys

FVERY day find you lame, stiff and achy? Feel tired and drowsy—suffer nagging backache, headache and dizzy spells? Are kidney eliminations irregular or painful? Know, then, that these are often signs of improper kidney action. Sluggish kidneys allow acid poisons to remain in the blood and upset the whole system.

If your kidneys act aluggishly, assist them with Dom's Pills. Dom's, a stimulant diuretic, increase the activity of the kidneys and aid in the elimination of waste impurities, Are endowed the country over. Ask your neighbor!
